FCA Compliance

Skillcast is the leading supplier of compliance e-learning to firms regulated by the Financial Conduct Authority (FCA).

Our FCA Compliance library comprises 80+ courses covering high-level standards, business standards for all sectors, and thematic topics such as conduct risk and fair treatment of vulnerable customers.

Financial services firms face an especially complex regulatory regime and can be sanctioned for rule breaches, as well as poor practice. Senior managers and certified persons at financial firms are personally accountable for their area of responsibility. To help protect firms and individuals, we ensure that the content in these courses closely follows the FCA Handbook and is reviewed regularly by experts with considerable training experience. The courses feature practice exercises, thorough assessments and affirmations to ensure that your staff are aware of and competent in applying the relevant rules.

"We've been using Skillcast for approx. 1.5 years and have been very happy with the service received and the courses offered. The customer service from the support team is excellent, they always respond quickly and are very helpful. The courses offered cover a broad range and the FCA courses were particularly useful to our business."

Global Compliance

The Global Compliance Library includes our most popular compliance e-learning courses in English and nine other languages. These courses adopt a global perspective on best practices without focusing on specific local regulations, making them suitable for staff worldwide. Designed to address a broad range of international laws and regulations, the Global Compliance Library features engaging news articles and realistic scenarios that illustrate best practices for employees in any location.

While the global modules offer a strong compliance foundation, they can be easily customised to include jurisdiction-specific content, ensuring they meet your organisation's needs. The library also includes CPD-accredited modules.

"Skillcast has truly transformed our approach to compliance training and tracking. Not only does it seamlessly manage our global company's compliance requirements, but it also enhances employee engagement through its user-friendly interface and interactive content. What sets Skillcast apart is not just the platform itself, but also their exceptional customer service team. It's been instrumental in streamlining our compliance processes and fostering a culture of proactive risk management, growth & development."

Compliance Bites

Compliance Bites are short animated video modules on regulatory topics and compliance issues, for example, anti-money laundering, anti-bribery, data protection and competition. In just a few minutes, these engaging animations bring complex topics to life with compelling storylines.

Designed to capture attention, each video provides employees with concise, impactful compliance insights. Their bite-sized format makes training more engaging and easier to digest, boosting uptake. You can deliver them as standalone modules, integrate them into e-learning courses, or include them in learning paths. Each video also includes a three-question assessment.

"It's been a very positive experience for me. The videos make training easier to follow, it's much quicker to learn things, and overall it takes up less of my time. So well done on this new format, it gets a thumbs up from me!"
